

### WebRTC School Qualified Developer (WSQD™) program

#### Overview

The WebRTC School™ is 'the' place to learn all about WebRTC, also known as Web Real-Time-Communications. There is so much information on the internet about WebRTC that is hard to read, poorly presented and also lacking in detail, making it difficult for people to learn about this most important specification. So the WebRTC School™ with its lively, clear and fully animated eLearning program has become the best place to enroll to learn about WebRTC.

#### Who would benefit from the **WebRTC School Qualified Developer (WSQD™) program**?

People who looking to understand WebRTC but with a special focus on learning how to build WebRTC applications. More detail on this program will be made available closer to the release date.

#### What's in the **WebRTC School Qualified Developer (WSQD™) program**?

Once you've enrolled, you'll see 12 modules. You can work through the modules in order or simply choose the ones you are most interested in. The modules are listed here and more details will follow in the coming weeks.

1. Introduction to WebRTC
2. WebRTC API Preview
3. Media Flows in WebRTC
4. Overview of WebRTC Protocols
5. WebRTC APIs
6. Simple WebRTC Pseudo code example
7. The Signaling Channel
8. Simple real code walkthrough
9. Security
10. Use Cases
11. Interoperability
12. The 'Status' of WebRTC and What's Next

#### Become a '**WebRTC School Qualified Developer** or **WSQD™**

You will be able to gain access to the test *separately* or as part of the main training package – check license 'purchase' options carefully when available..

**NOTE:** An access license for any training course and certification test is for 12 months from the date of purchase and if a test is purchased it must be taken before the license period expires.
